

Invitation

Pilgrim Basset Hound club Presents
A LECTURE on Endocrine Diseases in Canines

IVG's Hospital Group
Massachusetts Veterinary Referral Hospital

August 10, 2014

1:00 PM

Speaker

Dr. Rachel Cooper received her undergraduate degree in Biology from Tufts University, and then went on to receive a Doctorate in Veterinary Medicine at Tufts University School of Veterinary Medicine. Following veterinary school, she completed a small animal rotating internship in medicine and surgery at Wheat Ridge Animal Hospital in Colorado. Dr. Cooper went on to pursue residency training in small animal internal medicine at the University of Pennsylvania. She was accepted as a Diplomate into the American College of Veterinary Internal Medicine.

Endocrine diseases stem from imbalances in hormone levels. Hormone imbalances can affect your pet's health in many ways. Although some endocrine disorders are not life threatening, many are fatal if not diagnosed and treated.

Admission is free. On-site parking is available at no charge. For driving directions <http://ivghospitals.com/> Under Our Hospitals select Mass Vet Referral Hospital

In a continuation of our professional education series, Pilgrim Basset Hound Club (PBHC) has again partnered with the IVG Hospitals Group to present a program on endocrine diseases in canines at the IVG Hospitals Group - Massachusetts Veterinary Referral Hospital (MVRH) - in Woburn, Massachusetts on August 10, 2014 at 1:00pm in the MVRH conference room.

Endocrinology - is a branch of medicine dealing with the endocrine system, its diseases, and its specific secretions called hormones, and also the psychological or behavioral activities of metabolism, growth and development, tissue function, sleep, digestion, respiration, excretion, mood, stress, lactation, movement, reproduction, and sensory perception as caused by hormones. Endocrine diseases stem from imbalances in hormone levels.

The MVRH is a 24/7 365 days referral hospital staffed with Board certified DVM medical specialists and equipped with the latest in the state of the art medical technology.
